WELCOME MESSAGE

it is our great honor and pleasure to invite you to the 1st SGH-IASGO INTERNATIONAL SURGERY CONFERENCE, which will be held hybrid both an in-person meeting and online in Jeddah, Saudi Arabia from the 25th of November to the 27 of November 2022.

Our first IASGO chapter in gulf area will cover all areas of Hepato-Pancreato-Biliary and colorectal cancer Management, from a multidisciplinary perspective. Furthermore, this meeting will provide an opportunity for all participants to meet a large group of eminent experts to discuss emerging issues and exchange the latest information in their fields. Let's come together to fulfill the unique goals of IASGO to improve the standard of Medical Care by promoting Innovation and Multidisciplinary Approaches for the Treatment of Hepatobiliary and colorectal cancer and share the latest medical knowledge and expertise. In addition to the exciting scientific program, the host city of Jeddah, a beautiful historical and attractive city, is sure to offer all participants a charming experience

HONORARY PRESIDENTS

Prof. Saad Saleh Alshohaib

Prof Saad Saleh Alshohaib Group Academic
And Training Affairs Director

Prof Khalid A. Batterjee

Chairman, Schg Medical Affairs Vice President,
Saudi German Hospitals Group

Prof. Ihab Saad Ahmed

Mbbch, Msc, Md, Mrcs, Mba, Hm Assistant Professor, Nci,
Cairo University Head Of Surgery Department, Sgh, Jeddah

Prof. Shadi Alkhayyat

Assistant Professor - King Abdulaziz University
Medicine and Oncology
CMO Saudi German Hospital - Jeddah

CONFERENCE SECRETARY

Prof. Islam Khaled

Prof. Islam Khaled M. D, Mrcs Assistant Professor Of Surgery
Suez Canal University Consultant ,sch Jed

SCIENTIFIC COMMITTEE

Prof. Ihab Saad Ahmed

Mbbch, Msc, Md, Mrcs, Mba, Hm Assistant Professor, Nci,
Cairo University Head Of Surgery Department, Sgh, Jeddah

Prof. Islam Khaled

Prof. Islam Khaled M. D, Mrcs Assistant Professor Of Surgery
Suez Canal University Consultant ,sch Jed

Prof. Gad Mohamed Behairy ,MD

Senior registrar General surgery SGH Jeddah
Lecturer of General , hepatobiliary surgery and liver
transplant Ain shams university
Scientific Committee

ORGANIZING COMMITTEE

Dr. Yasser Eid

Organizing Committee

Mr. Saleh El Saiedy

Organizing Committee

INTERNATIONAL SPEAKERS

Prof. Kyoichi Takaori

Professor, Asahi University
CEO, Nagahama City Hospital Network
President, Nagahama City Hospital

Prof. Gabriel Dan Duda

Director of Translational Research in GI Radiation Oncology
Investigator, Massachusetts General Hospital Research Institute
Associate Professor, Harvard Medical School
Boston, USA

Prof. Ender Dulundu, MD, FACS

Professor of Surgery,
HPB Surgery & Director of Liver Transplantation Unit
Istanbul University-Cerrahpasa, Cerrahpasa Medical Faculty, Istanbul, Turkey

Prof. Irinel Popescu

Head of "Center of Digestive Diseases and Liver Transplantation,
Fundeni Clinical Institute, Bucharest
Director of Center of Excellence in Translational Medicine,
Fundeni Clinical Institute, Bucharest, Romania

Prof. Roberto Troisi

Prof. Roberto I. Troisi, MSc MD PhD FEBS (Transpl) (HPB)
Full Professor of Surgery
Director HPB, Minimally Invasive and Robotic Surgery Center
Federico II University
Naples-Italy

Prof. Guido Torzilli

Professor and Chairman, Department of General Surgery
Director, Division of Hepatobiliary and General Surgery -
Humanitas University - Humanitas Research
Hospital - Rozzano - Milano, Italy
Director Postgraduate School of Surgery, Humanitas University

Prof. Thilo Hackert, M.D

Deputy Chairman, Head of the Section for Pancreatic Surgery
Department of General, Visceral and Transplantation Surgery,
University of Heidelberg, Germany

Prof. Jan Schmidt

Prof. Dr. med. Dres. h.c. Jan Schmidt, MME (Bern)
Viszeralchirurgie und spezielle onkologische Chirurgie
Klinik Hirslanden / Klinik Im Park
Kappelstrasse 7

Prof. Elie CHOUILLARD

Chirurgie minimal invasive, oncologique, bariatrique et métabolique
Président de la Société Chirurgicale INOELS
Membre de la Société Française de Chirurgie Digestive (SFCD)
Membre de la Société Française de Chirurgie de l'Obésité (SOFFCOMM)
Member of the European Association of Endoscopic Surgery (EAES)
Member of the American Association of Endoscopic Surgery (SAGES)
Member of the American Society of Bariatric Surgery (ASMBS)
Member of the International Society of Bariatric Surgery (IFSO)
Lauréat du Collège de Médecine des Hôpitaux de Paris
Chirurgien des Hôpitaux / Professeur Associé

Prof. H. Volkan Kara

member of Thoracic Surgery Department. in Istanbul University- Cerrahpasa , Cerrahpasa Medical School. member of national and international organisations in thoracic surgery and pulmonary medicine, Prof H. Volkan KARA MD MSc

Prof. Amr shafik

Professor of Clinical Oncology & Managing Director of Ain Shams University Cancer Hospital, Faculty of medicine, Ain Shams University Medical City, Cairo, Egypt.

Prof. Mustafa adham MD, PhD

Professor of Digestive Surgery - Classe Exceptionnelle Faculty of Medicine Lyon Sud - University Claude Bernard Lyon 1

Prof. HO-Seong Han

Director of Korean Forces Capital Hospital(KFCS).

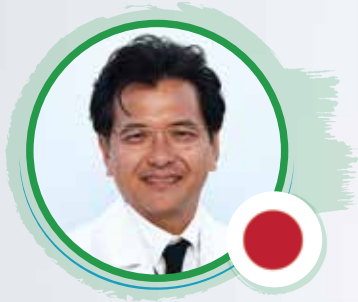

Prof. Amr Abdelaal MD, FACS

Professor of Hepato-Pancreatico-Biliary (HPB) Surgery and Liver Transplantation (LTx), Ain Shams University, Cairo, Egypt. Consultant and program director of Living Donor Liver Transplantation (LDLTx) - Air Force Specialized Hospital and Nasser institute for treatment & research and SGH.

Prof Mohamed ELghareeb

Prof of interventional radiology

SCIENTIFIC PROGRAM

The background of the poster features a stone archway, likely a historical landmark, with a flag flying on the right side. The entire image is overlaid with a semi-transparent green filter. The text '01 DAY' is prominently displayed in a large, bold, green font at the top center.

01 DAY

25 NOVEMBER 2022

1st **SGH-IASGO**

INTERNATIONAL SURGERY CONFERENCE

SESSION1 : Supportive care for cancer patients, pharmaceutical prospective

Chairperson : Prof. Ihab Alnakhoury, Dr Huda Ahmed , Prof. Turki Alqorashi

TIME	TOPIC	SPEAKER
15:30 - 15:50	Nutritional treatment of patients with colorectal	Dr. Mohamed Yasser Sorour (EGYPT)
15:50 - 16:10	Supportive care for cancer patients	Dr. Mohamed Farouk Mahmoud (EGYPT)
16:10 - 16:30	Cancer Related Infectious Diseases	Dr. Marwa Ahmed (EGYPT)
16:30 - 16:40	DISCUSSION	
16:40 - 17:20	LUNCH BREAK	

IASGO key note lecture

17:20 - 17:50	Enhanced Recovery After Surgery (ERAS) and how we implement ERAS at Nagahama City Hospital	Prof. Kyoichi Takaori (JAPAN)
---------------	--	---

SESSION2 : Care of colorectal cancer patients, Nursing prospective

Chairperson : Prof. Abdelaziz Aljohani , Prof. Ohoud Alamoudi, Prof. DrAli almontashri

17:50 - 18:10	Association of dietary patterns with colon cancer recurrence	Ms. Bakriah Alrashdi (SAUDI ARABIA)
18:10 - 18:30	Nursing Issues in Colorectal Cancer Chemotherapy	Ms. Shohrah Alshehri (SAUDI ARABIA)
18:30 - 18:50	Preoperative stoma siting and education by stoma therapists of colorectal cancer patients	Ms. Eisiah Alabba (SAUDI ARABIA)
18:50 - 19:10	DISCUSSION	
20:00	DINNER	

The background of the poster features a stone archway, likely a historical landmark, with a flag flying on the right side. The entire image is overlaid with a semi-transparent green filter. The text '02 DAY' is prominently displayed in a large, bold, green font, with 'DAY' in a smaller font size between the two zeros.

02 DAY

26 NOVEMBER 2022

1st SGH-IASGO INTERNATIONAL SURGERY CONFERENCE

SESSION 1: Recent update in Chemotherapy & Immunotherapy in management of colorectal cancer

Chairperson : Prof. Hany Soliman, Prof. Ihab Alnakhoury, Prof. Tarek Amin

TIME	TOPIC	SPEAKER
9:00 - 9:30	Can biomarker driven oncology cure colorectal cancer?	Prof. Saeed Rafii (UAE)
9:30 - 9:50	Metastatic CRC with borderline resectable Synchronous Liver Mets; conversion chemotherapy role	Prof. Tarek Mohamed (EGYPT)
9:50 - 10:10	Colorectal cancer is not one disease	Prof. Ihab Alnakhoury (EGYPT)
10:10 - 10:30	The Verdict on “Watch and Wait” Strategy After Complete Clinical Response For Rectal CA	Prof. Nasser Alsanea (Ksa)
10:30 - 11:00	DISCUSSION	

SESSION 2 : Minimally Invasive Approach in Management of Colorectal Cancer

Chairperson : Prof. Ashraf Magraby ,Prof. Mohamed Alyami,Prof. Nadim Malibary

TIME	TOPIC	SPEAKER
11:00 - 11:20	Trans anal total mesorectal excision for rectal ca.	Prof . Elie chouillard (FRANCE)
11:20 - 11:40	Updates on the role of minimal invasive procedures in management of colorectal ca.	Prof Saleh Aldaqal Prof. Mohamed Basendowah (SAUDI ARABIA)
11:40 - 12:00	Overview of systemic review & meta-analyses of laparoscopic vs robotic Colectomy	Prof. Islam Khaled (EGYPT)
12:00 - 12:20	Single port surgery in colorectal disease.	Prof. Khalid Abdullah Alresini (SAUDI ARABIA)
12:20 - 12:40	When is local excision appropriate for early rectal cancer	Prof. Haifaa Malaekah (SAUDI ARABIA)
12:40 - 13:00	Low rectal cancer: have we found the ideal surgical approach?	Prof. Ahmed Badrik (SAUDI ARABIA)
13:00 - 13:20	THE OPENING CEREMONY	
13:20 - 13:30	COFFEE BREAK	

IASGO key note lecture

13:30 - 14:00	Multidisciplinary approaches to the treatment of pancreatic cancer	Prof. Kyoichi Takaori (JAPAN)
---------------	--	----------------------------------

SESSION 3 : Recent Updates in Role of HIPEC in Colorectal Cancer

Chairperson : Prof. Ender Dulundu, Prof. Islam khaled, Prof. Haifaa Malikah

TIME	TOPIC	SPEAKER
14:00 - 14:20	HIPEC in colorectal cancer	Prof. Oliver Glehen (FRANCE)
14:20 - 14:40	The role of combined HIPEC & IORT in advanced colorectal cancer.	Prof . tarek Amin (SAUDI ARABIA)
14:40 - 15:00	Prophylactic HIPEC in locally advanced colorectal cancer	Prof. Ihab Saad (EGYPT)
15:00 - 15:30	Pipac for colorectal peritoneal carcinomatosis	Prof. Mohamed Alyami (SAUDI ARABIA)
15:30 - 15:50	DISCUSSION	
16:00 - 18:00	BREAK	

SESSION 4 : Metastatectomy in colorectal cancer

Chairperson : Prof. Ihab Saad , Prof. Mahmoud Salaheldin, Prof. murad aljiffry

TIME	TOPIC	SPEAKER
18:00 - 18:20	Parenchymal sparing surgery for colorectal liver metastases	Prof. Ender Dulundu (TURKEY)
18:20 - 18:40	Multimodal treatment of colorectal liver metastasis	Prof. Irinel Popescu (ROMANIA)
18:40 - 19:00	Placement of Rlvasc surgery in the treatment of colorectal liver metastases	Prof. Guido Torzilli (ITALY)
19:00 - 19:20	Surgical treatment of colorectal lung metastasis	Prof. Volkan Kara (TURKEY)
19:20 - 19:40	DISCUSSION	
20:30	GALA DINNER	

The background of the poster features a stone archway, likely a historical landmark, with a flag flying on the right side. The entire image is overlaid with a semi-transparent green filter. The text '03 DAY' is prominently displayed in the upper center in a large, bold, green font. The date '27 NOVEMBER 2022' is positioned directly below the main text in a smaller, bold, green font.

03 DAY

27 NOVEMBER 2022

Agenda

Conference Day 3 | 27 November

SESSION 1: Recent updates in management of pancreatic tumors

Chairperson : Prof. Ihab saad , Prof. Amr abdelaal, Prof. ahmed hashem

TIME	TOPIC	SPEAKER
9:00 - 9:30	Continuous perianastomotic irrigation dramatically reduces pancreatic fistula and mortality in pancreatic surgery	Prof. Jan Schmidt (SWITZERLAND)
9:30 - 9:50	cystic neoplasm of the pancreas	Prof. Thilo Hackert (GERMANY)
9:50 - 10:10	IPMN	Prof. Mustapha Adham (FRANCE)
10:10 - 10:30	Surgical solution for management of Delayed Gastric Emptying following PancreaticoDuodenectomy	Prof. Mostafa Abdo (EGYPT)
10:30 - 10:50	Pancreatic adenocarcinoma; Oncologist opinion	Prof. Amr Shafik (EGYPT)
10:50 - 11:10	DISCUSSION	

SESSION 2: Minimally invasive procedures in Hepato -Pancreato-Biliary (HPB) Surgery

Chairperson : Prof. Mostafa elshazly ,Prof.belghiti,Prof.Ehab elnakoury

TIME	TOPIC	SPEAKER
11:10 - 11:30	The hype of robotic liver surgery : pro and contra	Prof. Roberto Troisi (ITALY)
11:30 - 11:50	Robotic pancreatic anastmoses	Prof. Marco Vito Marino (ITALY)
11:50 - 12:10	Laparoscopic anatomic liver resection	Prof. Ho Seong Han (KOREA)
12:10 - 12:30	DISCUSSION	
12:30 - 13:00	LUNCH BREAK	

SESSION 3 : Recent Updates in Management of Hepato-Biliary (HPB) tumours

Chairperson : Prof. Amr abdelaal ,Prof. Mohamed Elqahtany,Prof. Ender Dulundo

TIME	TOPIC	SPEAKER
13:00 - 13:30	New liver cancer treatments Rationale and Progress	Prof. Dan Duda (USA)
13:30 - 13:50	Surgical treatments for hepatocellular carcinoma	Prof. Kiyoshi Hasegawa (FAR EAST)
13:50 - 14:10	major technical progress in Liver surgery.	Prof. Jacques Belghiti (FRANCE)
14:10 - 14:30	Role of surgery in chronic pancreatitis	Prof. Mostafa Elshazly (EGYPT)
14:30 - 14:50	Bridging HCC for LTx	Prof. Mohamed Elghareeb (EGYPT)
14:50 - 15:10	DISCUSSION	
15:10 - 15:30	BREAK	

SESSION 4 : Liver transplantation

Chairperson : Prof. Mostafa abdo, Prof. Gad Behairy, Prof. Ammar Dehlewi

TIME	TOPIC	SPEAKER
15:30 - 15:50	Challenges in pediatric liver transplantation	Prof. Mureo Kasahara (JAPAN)
15:50 - 16:10	Ped Ltx (Outcome)	Prof.Amr Abdelaal (EGYPT)
16:10 - 16:30	PED LTX. Non metabolic indications.	Prof.Mohamed Eladawy (EGYPT)
16:30 - 16:50	Liver transplant forHepatocellular carcinoma ; The whole Journey	Prof. Mohamed Al Qahtani (KSA)
16:50 - 17:10	DISCUSSION	

Building on a long family legacy as medical pioneers in the Kingdom, Saudi German Health (SGH) was founded by the Batterjee family ٢٤ years ago to relieve people's suffering and have a positive impact on their health.

In ١٩٨٨, Eng. Sobhi Batterjee, Chairman of SGH, and Dr. Khalid Batterjee, Vice President of SGH, established the first hospital in Jeddah and collaborated with German University Hospitals to bring advanced German healthcare standards and expertise to the local community for the first time in KSA.

In ٢٠٢١, the Group underwent a transformation and rebranding from Saudi German Hospitals Group to Saudi German Health. Makarem Sobhi Batterjee, the President and Vice Chairman of Saudi German Health, has been responsible for the complete transformation and rejuvenation of the brand.

The rebranding was not only a name change and visual upgrade but a portrayal of SGH rejuvenation - symbolizing progress, innovation, and positive change.

SGH is a consolidation of healthcare and education infrastructure, representing a global network of hospitals, clinics, pharmacies, medical education facilities, and training institutes.

Our founders

At Saudi German Health, our purpose is to positively impact people's health and relieve their suffering.

Eng. Sobhi A. Batterjee
 Chairman, Saudi German Health

Eng. Sobhi Abduljaleel Batterjee is a pioneering leader who is recognized for his role in shaping the healthcare industry in the GCC and MENA region over the past ٢٠ years. He is the Founder and Chairman of the Bait Al Batterjee Group, a leading diversified Saudi

conglomerate, and the Chairman of Saudi German Health. The companies he has founded and built over his long career employ over 1٢,٠٠٠ people in healthcare, medical education and other related sectors in the region.

He is credited with forming many strategic and visionary international partnerships to improve access to quality healthcare in the MENA region.

Eng. Batterjee was recognized with the H.H. Sheikh Mohammad bin Rashid Al Maktoum Award for the Best Arab Management Personality, Healthcare CEO Award - Arab Health, and National Medal of Cedar - Knight by the Government of Lebanon. In ٢٠٠٨, he received the EY Middle East Entrepreneur of the Year Award, and in ٢٠١٦ he was awarded Healthcare CEO of the Year by CEO Middle East Awards for outstanding contribution of an individual to the Middle East healthcare industry.

He earned his Bachelor of Engineering in Electrical Engineering from The University of Kansas, USA in ١٩٧٢ and a Master of Engineering in Electrical Engineering from The University of Colorado, USA in ١٩٧٢.

Dr. Khalid A. Batterjee
 Vice President, Saudi German Health

Dr. Khalid Abduljaleel Batterjee is one of the most recognized and respected medical minds in the Kingdom of Saudi Arabia, having practiced since ١٩٦٥, while playing an integral role in the growth and success of Saudi German Health as one of its founders.

He developed his skills and expertise in the field of Orthopedics and Spine Surgery and built a solid reputation in his field, that patients travel from across the region to get treated by him.

He is a popular member of various professional societies in Saudi Arabia and abroad, such as AO Spine, German Society for Orthopedics and Traumatology, American Society for the Neurological and Orthopedics Medicine and Surgery, to name a few.

Dr. Batterjee is actively involved in medical education and total quality management, and was granted a Doctor of Philosophy degree in TQM from Columbia University, USA in ٢٠١١; Post-graduate Diploma in Medical Education, Dundee University, UK in ٢٠١١; and the prestigious Masters in Health Professions Education (MHPE) from Maastricht University, the Netherlands, in ٢٠١٦.

He completed his medical studies and internship at the University of Vienna, Austria in ١٩٧٨, followed by his Doctor of Medicine, Fachartz, in the University of Essen, Germany in ١٩٨٥.

Our President

Our journey to become the leading healthcare provider in the Middle East and North Africa is founded on a very simple idea – to bring the best medical care in the world to improve the health, wellbeing of families and communities wherever we are.

Makarem S. Batterjee
 President & Vice Chairman
 of Saudi German Health

Since the launch of our first hospital in Jeddah three decades ago, Saudi German Health has witnessed continuous growth and strategic diversification, through the vision and leadership of our founders, Eng. Sobhi Batterjee and Dr. Khalid Batterjee.

Today, grouped under the Saudi German Health brand, we own and operate 11 multi-specialty tertiary care hospitals supported by outpatient clinics across MENA, all built as greenfield projects to ensure the highest standards of consistency, efficiency and medical care. Our workforce of over 4,000 doctors, nurses, healthcare professionals and administrative staff work together with passion, perseverance and purpose to relieve the suffering of millions of patients each year.

I have built upon this exceptional foundation to write the next chapter of our success story, by bringing our network of hospitals, clinics and medical education capabilities into one strategic business group, Saudi German Health, which now lies at the heart of the region's healthcare ecosystem.

We are driven by three key success factors – continuous knowledge transfer from developed healthcare markets, an unyielding commitment to quality, and a strategic doctor employment model that ultimately result in patient satisfaction and trust.

From day one, we have prioritized continuous improvement and collaboration across all levels of our organization. This deep commitment to knowledge, development and innovation – exemplified by our International Visiting Professor Program, continues

to create immense value for our doctors, patients and communities. Over the years, we have brought thousands of international doctors, professors and experts to our region to share their expertise and best practices, and we conduct thousands of hours of Continuing Medical Education each year.

Saudi German Health is now set for a new phase of accelerated transformation and growth, adapting to the ever-evolving healthcare landscape and needs of our patients. With an expanding hospital network, as well as increased diversification into specialty care, health clinics and medical education, our commitment to providing high-quality care grows with each passing year.

Together, we will work to achieve our shared ambition and spread into strategic new markets through greenfield projects, deepen our engagement in existing communities and expand our areas of specialty through centers of excellence. We will enable the success of our amazing talent through innovation and education. Most of all, we will always put the needs of our patients firmly at the center of everything we do in order to offer a best-in-class healthcare experience that restores body, mind and soul.

From our family to yours, we are committed to delivering care and compassion. Always.

Makarem Sobhi Batterjee is a business leader in the Kingdom of Saudi Arabia, with over 15 years of experience in healthcare, consulting and investment. He is the President and Vice Chairman of Saudi German Health and through his visionary leadership, he has been responsible for the complete transformation and rejuvenation of the 15-year old organization.

Mr. Batterjee is the founder and leader of some of the largest business organizations in Saudi Arabia.

Apart from being Saudi German Health's President and Vice Chairman, he is also the President of the family-owned Bait Al Batterjee Group, a diversified organization with investment in over 10 subsidiaries.

He is the Founder of Humania Capital, a private equity fund that has successfully raised significant amounts for projects in the GCC and North Africa, and the Founder and CEO of the New City Company, which builds contemporary shopping centers in the country.

He also owns the Gold's Gym franchise in KSA and is the owner of JanPro, a commercial cleaning brand. Mr. Makarem is the founding President of the Saudi Chapter of the Entrepreneurs Organization, a global,

peer-to-peer network of more than 13,000 influential business owners with 111 chapters in 60 countries.

As an active social entrepreneur, Mr. Makarem is a health and wellness advocate as well as a strong supporter of women empowerment initiatives. He is credited for bringing the Gold's Gym franchise to Saudi Arabia, and building the largest and first-of-its-kind female gym in the world.

Mr. Makarem holds an MBA from London Business School and an honorary doctorate from the United Nations for Arts Middle East and Africa, which he was awarded in recognition of his efforts to promote women empowerment.

He is part of 'Shark Tank', the Arab version of the US-based reality TV show, as one of its panelists. He is also the youngest member and one of the few Arab members of the prestigious Bretton Woods Committee in Washington, DC. The Committee comprises of international business leaders who champion global efforts to spur economic growth, alleviate poverty, and improve financial stability. He was also chosen as a Young Global Leader by the World Economic Forum (WEF) in Davos in 2014, as well as a Young Arab Leader in 2011 by His Highness Sheikh Mohammed bin Rashid Al Maktoum.

Purpose, vision and values

Our purpose, vision, and values have laid the foundation for our ethos of "Caring like family" across our global network of hospitals, clinics, pharmacies, and educational facilities, ensuring that our patients, partners, staff, and community receive the best care.

Our Purpose

At Saudi German Health, our purpose is to positively impact people's health and relieve their suffering.

Our Vision

We aim to be the most accessible & agile healthcare group in the region and provide innovative, comprehensive, patient-centric care to all patients anywhere, anytime.

Core Values that bring us all together

Our core values lie at the heart of everything we do, guiding our actions and behaviours each day while creating a strong foundation for our dynamic, open and resilient corporate culture.

Integrity

We conduct ourselves with the highest ethical standards. We believe in transparency and always doing what is right.

Passion & Dedication

We are deeply passionate about the work we do every day for our patients and their families. We work from the heart and are dedicated to meet the needs of our patients, staff and shareholders.

Family & People Centric Culture

We encourage a healthy, supportive and family-like environment within our organization. We treat our patients, employees and partners like family, keeping them at the center of everything we do.

Respect

We always treat our healthcare professionals, staff, patients and their families with utmost respect.

Responsibility

We take ownership of our work and the wellbeing of our patients, their families and other staff members.

Trust

We encourage and facilitate behaviors that develop, restore and extend trust to our patients and between our staff.

Education & Innovation

Continued education and innovation are the main drivers that put us ahead of our competitors. We seize opportunities and continuously implement tools and techniques to provide the highest standards of education & care.

Driving innovation and efficiency through technology

Saudi German Health has been recognized as a regional pioneer and innovator in the application of cutting-edge technologies in healthcare for over three decades.

In line with our focus on driving enhanced patient care and experience, as well as business efficiency and cost-effectiveness, we are committed to exploring, adapting, and implementing the latest medical technologies and digital solutions to become the leading network of smart hospitals in the region.

An automated digital management system to support a paperless environment

A chatbot and a fully integrated mobile app that offers convenient access for patients to access hospital services.

A state-of-the-art centralized system to optimize operational processes across all Saudi German Health facilities

A Hospital Queue Management System to manage patient flow in a safe and efficient manner

Integrating smart technologies into existing infrastructure including remote monitoring systems and AI, to enhance the effectiveness of care and safety offered to patients, visitors, and staff
